

Applus+ informs you that this website uses cookies. Cookies are small data files that can be saved on your hard drive. They are used to collect, store and track information for statistical purposes, to improve the products and services that Applus+ provides as well as to improve your browsing experience. These cookies do not enable third parties to access any personally identifiable information.

Types of Cookies Used

Analytical cookies: These cookies allow us, or third parties, to track the number of users accessing our website and therefore enable us to measure data and carry out statistical analysis of the usage of the service we provide. In order to do so, your browsing activity on our web page is analyzed with the aim of improving the products and services that we offer.

Multimedia player session cookies: These cookies allow the user to browse via a web page, program or application and use the various options and services available. In this case, they allow the storage of information required for the transmission of video and sound.
